2. What historical event used a malware attachment to steal user information and passwords?

1 / 1 point

☐ Brain virus

☐ Morris worm

☐ Equifax breach

☒ LoveLetter attack

👍 Correct

3. Fill in the blank: Social engineering is a manipulation technique that exploits _____ error to gain access to private information.

1 / 1 point

☐ computer

☒ human

☐ network

☐ coding

👍 Correct

4. Which of the following threats are most likely to occur in the event of a phishing attack? Select all that apply.

1 / 1 point

☒ Employees inadvertently revealing sensitive data

👍 Correct

☐ Theft of the organization's hardware

☐ Overtaxing systems with too many internal emails

☒ Malicious software being deployed

👍 Correct

5. A security professional is researching compliance and the law in order to define security goals. Which domain does this scenario describe?

1 / 1 point

☐ Security assessment and testing

☐ Identity and access management

☒ Security and risk management

☐ Security architecture and engineering

👍 Correct

6. Which domain involves optimizing data security by ensuring that effective tools, systems, and processes are in place?

1 / 1 point

☐ Communication and network security

☒ Security architecture and engineering

☐ Security and risk management

☐ Identity and access management

👍 Correct

7. Which of the following tasks may be part of the asset security domain? Select all that apply.

0.75 / 1 point

☐ Ensuring users follow established policies

☐ Data storage and maintenance

☒ Securing digital and physical assets

👍 Correct

☒ Proper disposal of digital assets

👍 Correct

You didn't select all the correct answers

8. Which of the following tasks may be part of the security assessment and testing domain? Select all that apply.

1 / 1 point

☐ Securing physical networks and wireless communications

☒ Auditing user permissions

👍 Correct

☒ Collecting and analyzing data

👍 Correct

☒ Conducting security audits

👍 Correct

9. Which of the following tasks may be part of the identity and access management domain? Select all that apply.

0.75 / 1 point

☐ Controlling physical assets

☒ Setting up an employee's access keycard

👍 Correct

☐ Conducting security control testing

☒ Ensuring users follow established policies

👍 Correct

You didn't select all the correct answers

10. Which domain involves conducting investigations and implementing preventive measures?

1 / 1 point

☐ Asset security

☒ Security operations

☐ Security and risk management

☐ Identity and access management

👍 Correct
